Name der Gruppe: "Meet the presidents" - Journalist Network

#### Beschreibung:

This forum is ment to bring together journalists all over the world in order to support each other in making contacts and getting acces to people, from key decision makers to "normal" people, who have to tell interesting stories.

The idea for this group was born in october 08 in Johannesburg at an Alumni Fair about Innovative Networking together with the journalist Chipso Musoko from Zimbabwe, the journalist and filmmaker Ralph Weihermann from Germany and me, Mirjam Leuze, a Cologne based journalist and filmmaker . Especially in journalism we are very much depended on networks and information to which we very often only get acces to by knowing the right people. Let`s support each other. Mirjam
